## Eid-ul-Adha 1437H Report

## Hizb-e-Khalilullah

Since more than a decade, in accordance with Syedna Khuzaima Qutbuddin's RA wishes and guidance, dedicated Mumineen organize *qurbani* and *taqseem* of meat on Eid-ul-Adha to thousands of homes. Last year Syedna Qutbuddin gave this team of Mumineen the name "Hizb-e-Khalilullah", referencing the mubarak name of Nabi Ibrahim Khalilullah SA, who established the *rasam* of *qurbani*.

This year, Syedna Taher Fakhruddin TUS instructed that Hizb-e-Khalilullah should continue this *hasanat* of Syedna Qutbuddin. With Syedna Taher Fakhurddin's *raza* and *doa* Hizb-e-Khalilullah organized *qurbani* program in Eid-ul-Adha 1437H. This is a detailed report of the activities.

### Mission Statement:

Under the auspices of Zahra Hasanaat, Hizb-e-Khalilullah aims to facilitate *qurbani* in Eid-ul-Adha with the following mandate:

1. *Qurbani* sheep should be compliant with the stipulations of Shari'at. We use sheep (which according to Shari'at is better for *zabihat* than goats) and make sure they are mature and without any defect. Members personally purchase individual sheep to ensure this.
2. *Qurbani* meat should be personally delivered to individual homes of Mumineen and Muslimeen, especially in less affluent areas, with dignity and respect. This activity follows the tradition of A'immat Tahereen in Fatimid Misar and embodies the spirit of Eid-ul-Adha. A great deal of planning goes into organizing the cutting, cleaning, packing and delivery of the meat on the same day.
3. The *Qurbani* and *Taqseem* program aims to create an atmosphere of *mohabbat*, cooperation and social service in community members. The program is organized to enable maximum community members to practice the *sunnat* of *Qurbani* and also to encourage and facilitate maximum participation in this community activity and social service.

## Notes:

**1)** All sheep are bought by volunteers to ensure they comply with Shari'at stipulation (sheep garner more *sawaab* than goats. They must be mature - which requires checking of how many teeth they have, and should have no defects - i.e. no broken horns, limbs or blind). **2)** Sheep are bought ahead of time to get best price and quality. This entails effort to take care of the animals from time of purchase till Eid (approx. 10 days). This year the sheep were of excellent quality and value for money - relative to the high market - and averaged close to 21 kilos per sheep. **3)** Volunteers visited the Deonar Mandi and spent many hours to purchase sheep this year and took care of them until Eid. **4)** Due to Eid being during the Monsoon season, a large Mandap had to be erected in the grounds of Darus Sakina to keep the sheep and for *zabihat*, cleaning and packaging.
